Auto-Marking

Court Query Manager

Cloud Computing

Tip of Issue II

Auto-Marking (New Features)

Some new features have been added to make this system more efficient and impartial.

- ***Reference cases** entry in the software has been restricted (which was allegedly mis-used) and the decision is left for the Hon'ble Courts, whether reference is valid or otherwise.*
- *System automatically marks **bail matters** to Hon'ble Courts depending upon FIR information fed into it.*
- *To avoid accidental missing of FIR data, System has been improved to mark only those bail matters in which **FIR information** has been fed.*

NJP Statements Software

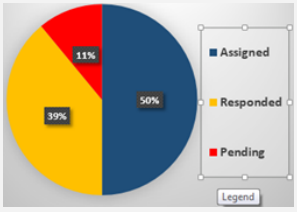

A software application for NJP Cell of this Court is developed that facilitates in following tasks:

- *quick reporting for authorities to analyze the **performance of sub judiciary** and future planning.*
- *Daily Entry for NJP Category **New Oldest Category (**filled up to 31.12.2008**)**, reports are made available for NJP Implementation Cell*
- ***Fortnightly Statement** entry, reports are made available for NJP Cell of this Court.*

Court Query Manager (New Features)

Court Query Manager software application is getting vast in term of its feature to facilitate stakeholders. Following new features are incorporated in software

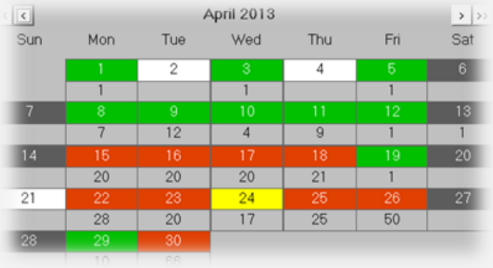

- ***Search** using keywords, tagline, act, section or query no.*
- ***Graphical** representation of reports.*
- ***Online** module to share/add*

Court Calendar

*Court Calendar is a software application that facilitates the Hon'ble Court to **balance daily workload.***

It was initially installed in the Court of Hon'ble

***Mr. Justice Syed Mansoor Ali Shah**.*

*After successful implementation it has been extended to the Court of Hon'ble **Mrs. Justice Ayesha A. Malik** and being installed in the Court of Hon'ble **Mr. Justice Ijaz ul Ahsan**.*

Opening Sheet Implementation

Opening sheets were developed to fill further detail information about case at the time of case filing.

- *Category and sub-category of the case.*
- *mobile and email address of all parties.*
- *Verification of CNIC through NADRA.*
- *Lower Court Case information.*
- *Case Law involved etc.*

Software for the said purpose has been developed and ready for installation. It will be made operational as soon as Urgent Cell starts functioning in new building.

Court Pendency Counter *VER 2*

*Court Pendency Counter (CPC) software application 2nd version is d deployed at Principal Seat and Benches of this Court. In this version the Hon'ble Court statistics are being presented to Hon'ble Chief Justice, Lahore High Court via an automated system generated email to staff officer to Chief Justice, containing information of daily **fixation and disposal** of single bench and division bench.*

Support in PIC Judicial Inquiry

Recently a judicial inquiry regarding Punjab Institute of Cardiology against defective drugs took place under the chairmanship of Hon'ble Mr. Justice Ijaz Ul Ahsan.

IT team members Mr. Naseem Abbas Bhatti and Hafiz Muhammad Ishaq given remarkable support in during the hearing in the tribunal, composing, designing and printing the report.

VISIT OF LUMS

*Research Officers and IT Officers of Lahore High Court visited Lahore University of Management Science (LUMS) to examine the **library operations**, usage of library information system software and online availability of **library resources**, security of books, rules and regulations employed in the library.*

*Dr. Muhammad Ramzan, Director Library, gave comprehensive information of library setup and demonstration of the library software '**Virtua**'.*

NEW ARRIVAL OF HARDWARE

*Recently new laser printer received through PITB project **"New IT Initiatives at Lahore High Court and District Courts".***

The proposed distribution plan for laser jet printer is two laser printers may be permanently fixed / issues in every Hon'ble Court .

This will facilitate Hon'ble Courts with upgraded technology as well as enable for executing the automation software.

KNOWLEDGE SHARING

WHAT'S CLOUD COMPUTING

*Cloud computing is the next stage in the Internet's evolution, providing the means through which everything — from computing power to computing infrastructure, applications, **business processes** to personal collaboration — can be delivered to you as a service **wherever and whenever you need.***

*Word 'Cloud' can be referred as set of hardware, network, storage, software application and interfaces that combine to **deliver a service** to user. The famous Cloud Computing providers are **Google**, **Amazon**, **Microsoft** and **IBM**.*

MS WORD 2010 TIPS

When working in Microsoft Word 2010, don't forget these handy tips and tricks to get something done quickly or to format your text more in a more pleasing way.

* *Press Ctrl+Enter to start a new page. A **manual page break** is inserted, which forces a new page automatically.*
* *Press Shift+Enter to insert a soft return, which is useful for **breaking a line of text**, such as in a document title or an address.*
* *Use tabs to **line up your text**. Never use spaces. One tab is all you need. If you're typing more than one tab, you need to reset the tab stops.*
* *Always use one tab between columns to line them up. That makes editing the information easier if you have to do it.*
* *If you need to change **page formatting** in the middle of your document, start a **new section**.*
* *Save your styles in a **template**! That way, you can use them for new documents you create without having to **rebuild all your styles** over and over.*
